JUSTICE JEROME INTERESTED IN DR. MARTIN'S TESTS.

HE SAYS MOST OF THE ADULTERATION IS DONE

Justice Jerome left his seat on the bench of the and spent the remainder of the day with Dr. Mar-tin, the Board of Health chemist, and his assistant. Dr. Lederie, in the Health Department chemical laboratory examining the apparatus used by the Board in testing samples of milk sent to them by the inspectors, and in listening to the explanations of the chemists, who pointed out to him he different stages in the experiments. The Justice also looked over some of the reports on milk

ice also looked over some of the reports on milk asses compiled by Dr. Martin.

In discussing the present situation in the milk rusade, Mr. Jerome said that thus far everything and worked entirely to his satisfaction, both in tetecting and securing the conviction of the veners of adulterated milk, and that he believed pubcis estimated with the said, however, that he believed many of the perfectly honest dealers were aving a hard time to secure pure milk on account f the constant adulteration by the farmers of tilk which comes in daily to the twenty milk design this city.

milk which comes in daily pots in this city.

"That the State Dairy Commission and Mr. Van Yalkenberg, who is at its head," said Justice Jerome, "are doing little to stop this adulteration of milk practised by the farmers all over the State was brought out clearly by Mr. Van Valkenberg's own acknowledgment in court yesterday, when he said that whereas formerly only 40 per cent of the adulteration had been done in the country and 60 per cent of the milk was adulterated by the farmers."

the farmers."

The Milk Dealers' Protective Association held a meeting yesterday afternoon at their headquarters. No. 12 Eighth-st., and decided to employ an attorney at once for their protection. They also decided to apply to the State and City Boards of Health to find out if a chemist employed by them could be vested with the same power to condemn milk as is granted to a Board of Health inspector.

AFTER BROOKLYN WHOLESALE DEALERS. Health Commissioner Emery, of Brooklyn, has isted an order to wholesale milk-dealers that they, ell as the retailers, shall be held responsible as well as the retailers, shall be held responsible for selling impure milk. "There is no excuse for the wholesalers," said Mr. Emery yesterday. "They are told to test their milk before selling it, and if they can't do it themselves they can come here and we will do it for them. We have been looking carefully of late into the kind of milk used for Brooklyn's consumption, and it can safely be said that the city was never served with a purer product than it is getting at present."
